Attachments: Ex. 7(A)

Stacie,

Chad heard back from WV Mining; no additional targets were added to the vetted list. We sent 5 to WV Mining. 4/5 targets are pending state enforcement. The last one is a surface mine in reclamation. I've updated the targeting excel (attached) to put these on the "Removed" list. Still waiting on VA and MD, but otherwise this should be up-to-date. I tried to also move some of the inspections I know are completed to the "Completed" sheet, but I might not be fully in the know on that.

Monica, for your database purposes, all of the columns should be the same throughout the sheets, except for the "ECHO Downloaded Data." So it could be one table in the Access database. I just split them into different sheets in excel to keep my sanity.

Best,
Amanda
